

SNARE + LESSONS + DRUMSET

By Robert Genito - robertgenito@gmail.com

Robert Genito is a live performer, studio session drummer, and drumset instructor now teaching private lessons at Mega Music. He is also the author of the *Rapid Drumset Improvement* volumes. He has played professionally since 18, started teaching drumset and snare full-time since the age of 21, and since then has taught over thousands of lessons.

Robert specializes in the most efficient and productive developmental techniques. If you want to make your school's drum line and have little time to spare, do not hesitate to book lessons now! Robert also teaches all levels and all ages—whether you are a complete beginner, getting ready to attend Berklee College of Music, or an advanced student looking to discover new levels of creativity, discipline, and fulfillment.

While he now plays numerous gigs around Florida with reggae/rock cover band Grand Theft Deity, he has also toured nationally with Cellpan (electronic, heavy rock). He has laid down drum tracks for Cellpan's EP *Conception* (2005) and Cellpan's full-length album *3rd Impression* (Vitruvian Records, 2008). Robert was also the drummer of choice by Tampa's operatic folk group Mena Brinno. The drum tracks for Mena Brinno's *Moon Fever* EP were recorded at Morrisound Recording Studios (Tampa, FL) in Oct. 2006, and later released on Mena Brinno's debut album *Icy Muse*—Dark Balance Records (Oct. 2007, Netherlands). In February (2007) he also recorded drum loops for New York City-based Sample Logic. You can hear his drum loops in Sample Logic's library entitled *The Elements*—released in October of 2007.
